Re: International Paper Georgetown Mill and Container Plant EPCRA Inspection

Dear Mr. Bhushan:

As a follow-up to your EPCRA inspection conducted on September 7, 2011, we have enclosed the requested SARA 311/312/313 submittals for the International Paper Georgetown Mill and Container Plant for the past three years. All reports were submitted on-time as shown by the attached receipts. Each facility is part of different divisions of International Paper, a \$25 billion company with both facilities having combined revenue of \$250-500 million. For SARA reporting purposes, one combined submittal is provided since the facilities are co-located. A list of all hazardous substances with peak inventory is also included in this submittal.

The Georgetown Mill employs approximately 639 employees and the Container Plant employs approximately 60 employees. Both sites are covered under NAICS Codes 322110 (Primary), 322121 and 322130 and SIC Codes 2621 and 2611. Only the Georgetown Mill is a RMP covered facility with a maximum quantity on-site for chlorine dioxide of 64,000 lbs. The latest update to RMP was submitted on February 22, 2010.

Please contact me if you have any additional questions or comments electronically at ken.ray@ipaper.com or 843-545-2697.

Sincerely,

Ken Ray EHS Manager
